

# BADGER INU

A Deflationary meme  
token for decentralized  
finance.

# INTRODUCTION

Badger Inu is a decentralized meme token, inspired by the Wakanda inu token and has been forged from the promise of fostering an independent crypto community where members from any part of the globe can trade cryptocurrencies without restrictions.

## Our goals/Objective

With the integration of the Binance Smart Chain contract, we plan to lessen the verification hurdles that traders face when trading cryptocurrencies.

As a system, we intend to provide our members with a regular source of earning with the introduction of our passive income enterprise.

Badger Inu being a community-centric project, we cannot iterate how important it is that we give back through our altruistic charity grants by removing 1% tax per transaction made.

# ECOSYSTEM (Decentralizing Everything)

We cannot deny that we still operate in a centralized economic landscape where the average investor has little or no control over what drives the growth of an investment.

This was the motivation our founder had to build a decentralized ecosystem, an ecosystem that comes from the idea of reinventing how wealth can be acquired, which goes against the traditional process.

The team at badger Inu have designed and built a sustainable ecosystem with one motive – 'decentralizing Everything', from decentralized networks to decentralized market places.

# TOKENOMICS

The tokenomics of Badger Inu are as follows:

- max-supply – 100,000,000,000,000
- 7% tax is subtracted from all transactions.
- 5% to reward wallet
- 1% to charity
- 1% automatic burn from supply

## Token Distribution

- Presale – 35%
- Liquidity – 30%
- Marketing – 10%
- Development – 20%
- Dev allocation – 5%

# LIQUIDITY LOCKED

70% liquidity will be locked over the period of 5 years on the pancakeswap exchange this will help us provide security of funds and gain more trust from the holders

# REWARD WALLET

As a community-driven project, the Badger Inu team has decided to create a reward wallet that rewards members per transaction as our passive income initiative.

# ANTI-WHALE MECHANISM

The anti-whale mechanism has been implemented to protect the holders of the Badger Inu token from the hands of whales, notorious dumping and pumping tokens for profit.
